# Penetrating Lubricant

Ref. 1123

12x400ml

## USE

Specially designed for professional use.

Bardahl Penetrating Lubricant is an extremely fluid transparent liquid, with very high penetrating properties.

It is essential for repair and maintenance work (auto, motorcycle, garden machinery, water sports, agriculture, construction, DIY or any other domestic use).

It allows rapid disassembly of mechanical parts excessively tight or blocked by rust or corrosion.

## PROPERTIES

Bardahl **Bardahl Penetrating Lubricant** has the following properties:

- Unblocks oxidized greases
- Dissolves rust
- Forms a lubricating film
- Protects against corrosion
- Facilitates disassembly.

By its exceptional fluidity and its wetting power, it slips between seized surfaces, taking advantage of the smallest gaps offered and even travels through porous oxides.

## INSTRUCTIONS FOR USE

Shake well before use.

Use the extension tube to spray.

Let act for 5 to 10 minutes and unlock.
